ICSEng2022 Call for Papers

The 29th International Conference On Systems Engineering
ICSEng2022 in TOKYO, Augst 23-25, 2022 in Tokyo, JAPAN

http://icseng2022.net

The conference aims to discuss the state–of–art in Systems Engineering and Computer Science areas, including concepts, applications, and technologies supporting contemporary information systems. The event is addressed to the scientific community, and people involved in developing business and industry information systems and applications. ICSEng 2022 will cover the general areas of Systems Engineering and Computer Science, with particular emphasis being placed on applications. It is expected to include sessions on the following themes:

- Aero-Space Systems
- Analog and Digital Hardware Systems
- Artificial Intelligence and Machine Learning
- Big Data
- Cloud, Edge and Fog Computing
- Computer, Network
- Information Systems Security
- Cyber-Physical Systems
- Distance Learning & Training
- E-Business Systems
- Financial technology

- General Control Systems
- Hyperautomation and Industry 4.0
- Internet of Things and Web of Things
- Medical Systems and Telemedicine
- Parallel and Distributed Systems
- Power Systems
- Robotics, Computer Vision, and HCI
- Sensor and Biometric Systems
- Telecommunication and Networking
- Web Systems
- Media and Design

Compendex on Engineering Village

Venue@Toyo University, TOKYO Campus
Adress : 5-28-20 Hakusan, Bunkyo-ku, Tokyo 112-8606

Registration and submission : April 30
Notification of paper acceptance : June 1
Fee payment : June 30
Registration of participation : June 30

The papers, accepted in a peer review process, will appear in the proceedings published in Springer's "Lecture Notes in Networks and Systems" book series, submitted for indexing by the Thomson Reuters (Web of Science), SCOPUS, DBLP, Ei Compendex, Google Scholar and Springerlink..
